China-American Economic Relations: Retrospect and Prospect

Prof Cheng Si-wei

*Vice-Chairman, Standing Committee
of the National People's Congress, PRC*

Prof Cheng Si-wei is currently the Vice-Chairman of the Standing Committee of the National People's Congress of the People's Republic of China, and Chairman of the China Democratic National Construction Association (CDNCA). He was an academic advisor to the World Bank and has published many academic books and over 120 articles in leading academic journals. He has been focusing in promoting management sciences in China and has formulated the widely recognized "three foundations, three levels, three areas" concept which has formed the framework and direction of the subject. In recent years, Prof Cheng has also proactively advanced the development of venture capital in China, which earned him the recognition as the "godfather of venture capital in China".
